- Q&A

## Saturday, May 10

- Breakfast (Marriott Southwest)
- Shuttle departures to lab (NASS)
- Cadaveric Workshop
- Lunch and Case-based Discussions
- Shuttle departures to airport

## Zimmer Trabecular Metal Total Ankle Replacement Surgical Technique Course

The course covers the surgical technique, clinical considerations, and surgical tips and pearls for the implantation of the TM Total Ankle system. The TM Total Ankle implantation involves a unique lateral surgical approach. Hence, its innovative instrumentation set is designed to facilitate this approach and provide consistent results. The course aims to describe the use of the instrumentation system and how to effectively integrate it in the operating room. The course will also include discussion about how to address simple to complex procedures, patient indications and post-surgical protocol. Participants will have the opportunity to observe and participate in up to two full surgical procedures. Upon completion of this course, participants will be able to:

- Understand the utilization of the specialized alignment frame instrumentation during the total ankle replacement procedure.
- Identify potential issues that may arise during the procedure and effective solutions.
- Practice the proper implantation and use of TM Total Ankle and other foot and ankle products.

### Hotel Information

Chicago Marriott Southwest  
at Burr Ridge  
1200 Burr Ridge Parkway  
Burr Ridge, IL 60527  
630 986 4100
